Professional Profile

Years of content and organizational operations experience, with the ability to identify real problems and constraints in specific business contexts, translate complex needs into executable tasks, and coordinate Codex and other AI agents through production, correction and acceptance. Strong in multi-source verification, feedback loops and reusable workflow design.

Core Capabilities

Business Discovery	Requirement Translation	AI Delivery	Information Quality	Reusable Workflows
--------------------	-------------------------	-------------	---------------------	--------------------

Experience

NAAI & EAE / Academic and Cultural Project Operations

NAAI Core Management Team / International Project Lead; EAE Website Content Operations | Mar 2025 - Present

- Structures NAAI and EAE member materials into verification fields covering identity, institution, role, research area, representative work and public sources, identifying missing, conflicting or unverified items for review and page correction.
- Runs the EAE Member, News and related content workflow from material organization and written-English checks to title, source and post-publication review, creating a complete quality loop.
- Coordinates nomination, film and participant materials for Astria Awards and related programs, tracking critical gaps, director or jury communication, certificate wording, milestones and final records.
- Uses Codex for extraction, drafting, page and document implementation and iterative revision while defining objectives, boundaries and correction standards, verifying facts and accepting final results.

Shuotu Education Technology Group

Executive General Manager | 2023 - 2025

- Identified operating issues across user, content, community and partner feedback, clarifying priorities, owners and execution milestones.
- Converted fragmented communication, missing materials and process blockers into trackable actions, coordinating information recovery and issue resolution.
- Closed the loop with users and partners, reviewed outcomes and adjusted content, service and follow-up plans based on feedback.

Siyuan Hanke Culture Communication Co., Ltd.

New Media Operations Specialist / Content Operations Lead | Mar 2018 - Aug 2023

- Managed the full content flow from topic selection and editing to publishing and ongoing maintenance.
- Adjusted topics, framing and publishing schedules based on user feedback and content performance.
- Produced online campaign and promotional content, then tracked publishing, user interaction and follow-up feedback.

Kuitun No.1 Middle School

Junior High School English Teacher | Sep 2016 - Feb 2018

- Organized course content and classroom activities around learning goals and student needs.
- Recorded progress, communicated feedback with students and parents, and adjusted teaching plans accordingly.

Selected Projects

Member Verification & Content Operations Loop

Context: Materials may include missing fields, inconsistent titles, unclear public sources or page-level discrepancies.

Actions: Translates the operating need into verification fields and decision boundaries, uses AI for extraction, manually reviews identity, institution, professional background, public sources and page content, and turns issues into corrective actions.

Deliverables: Verification records, field standards and revision lists, member or news pages, and a publication review workflow.

AI Agent-assisted Multi-format Content Delivery

Context: One resume experience required accurate content, complete Chinese and English states, mobile presentation, forms, PDFs, Word files and live deployment.

Actions: Defines users, factual boundaries and acceptance criteria, translates the goal into content, page, form, document and publication tasks, and directs Codex through iterative implementation and correction.

Deliverables: Bilingual website, PDF and Word resumes, information collection flow, mobile adaptation and a public live version.

Film Awards Materials & Milestone Coordination

Context: Awards programs connect nominations, film materials, director or jury communication, review milestones, certificates and documentation.

Actions: Organizes nomination and film materials, records missing or unverified items, follows communication, checks certificate wording and archives final materials.

Deliverables: Nomination and film materials, open-item records, communication follow-up, certificate text and archived records.

Skills

Business Delivery	Business discovery, problem framing, requirement translation, prioritization and acceptance criteria
AI Collaboration	AI Agent Workflow, vibe coding, Codex collaboration, iterative feedback and outcome review
Content & Information	Multi-source verification, website content operations, written-English content review and quality control
Delivery Coordination	Feedback loops, cross-functional coordination, revision follow-through, reusable skills, templates, workflows and checklists

Education

Yili Normal University | Undergraduate study in English Education | Sep 2012 - Jun 2016

Training in English language, pedagogy, curriculum design and teaching practice, with a foundation in education content and written English materials.
