China / remote global collaboration

Professional Profile

Supports NAAI and related international cultural awards programs across member development and profile review, website content operations, international partnership email communication, certificates, awards workflows, bilingual project documentation and AI Agent-enabled operational delivery.

Public Institutional Context

3,200+	85+	4	17	24
NAAI member network	Countries / regions	Nomination awards	Public sections	News / announcements

Note: These are public institutional figures checked on thenaai.org on July 8, 2026. They describe the project environment, not individual achievements claimed in isolation.

Core Capabilities

- International project operations across time zones, cultures, stakeholders, milestones and deliverables.
- Academic and awards systems covering member review, nominations, jury communication, certificates and documentation.
- Bilingual institutional writing for websites, official emails, project descriptions, notices and certificates.
- AI Agent workflow design that connects research, structuring, drafting, human review and delivery checks.

Experience

NAAI / International Academic & Cultural Project Operations

Core Management Team / International Project Operations Lead · Mar 2025 - Present

- Supports global member development, academic profile structuring and review preparation for an international expert network.
- Designs human-in-the-loop AI Agent task flows for website pages, bilingual documents, email templates and project materials.
- Supports Astria Awards and related film and cultural programs across nominations, film collection, director outreach, jury workflows and certificates.
- Handles international partnership emails, project explanations, partner material organization and follow-up.

Shuotu Education Technology Group

Executive General Manager · 2023 - 2025

- Participated in organization operations, education projects, community services, user communication and partnership development.
- Coordinated content, operations, project and partner resources to improve delivery efficiency.

Siyuan Hanke Culture Communication Co., Ltd.

New Media Operations Specialist / Content Operations Lead · Mar 2018 - Aug 2023

- Led education content planning, new media operations, user analysis, campaigns and content-system development.
- Adjusted content direction and publishing rhythm based on user feedback and performance data.

Kuitun No.1 Middle School

Junior High School English Teacher · Sep 2016 - Feb 2018

- Delivered English courses, designed classroom activities and supported student management and learning feedback.

Selected Cases

Global Academic Membership Operations

Context: Member profiles span countries, disciplines and professional settings, requiring completeness, public-identity consistency and careful communication.

Contribution: Structures identity, institution, field, public sources and missing information for review support, follow-up and website maintenance.

Workflow: AI Agents support material organization, checklists and bilingual drafts; human review verifies names, titles, institutions, links and terminology.

Scope: 3,200+ members and 85+ countries or regions are NAAI's public institutional context, not individual achievements claimed in isolation.

AI Agent-enabled Website & Operations Workflow

Context: Websites, bilingual materials, email templates and project documents combine facts, structure, tone and delivery format.

Contribution: Breaks ambiguous requests into objectives, research, structuring, drafting, human review, implementation and final checks.

Deliverables: Bilingual website, Tally access flow, Chinese and English PDF resumes, project cases and delivery checklists.

Scope: This demonstrates operational AI Agent workflow design, not independent development of complex low-level systems or a full-stack engineering claim.

International Film & Cultural Awards Operations

Context: Awards operations connect nominations, film materials, directors, juries, review milestones, certificates and results.

Contribution: Supports project explanations, nomination and film collection, director and jury communication, milestone reminders and documentation.

Deliverables: Bilingual project documents, communication emails, review materials, certificate wording and result notifications.

Scope: The accurate claim is participation in specific operational stages, not sole ownership of an entire awards system.

Standard Working Method

1 Define	2 Verify	3 Structure	4 AI draft	5 Human review	6 Delivery check
-------------	-------------	----------------	---------------	-------------------	---------------------

Skills

International Project Operations	Academic Institution Operations	Awards Review Systems
Membership Review	AI Agent Workflow Design	Human-in-the-loop Operations
Task Decomposition	Website Prototyping	Bilingual Copywriting
Website Content Operations	International Email Communication	Process Standardization

Education

Yili Normal University · Undergraduate study in English Education · Sep 2012 - Jun 2016

Training in English language, pedagogy, intercultural communication, curriculum design and teaching practice.
