Professional Profile

Years of experience across content, education and organization operations. Translates business needs into executable work, coordinates Codex, ChatGPT and other AI agents, and uses information verification, cross-role follow-through and outcome review to move complex work toward usable, verifiable delivery. The differentiator is not tool access alone, but defining boundaries, correcting drift and closing the loop.

Core Capabilities

Requirement Analysis	Task Decomposition	AI Agent Coordination	Information Governance	Delivery
----------------------	--------------------	-----------------------	------------------------	----------

Experience

NAAI & EAE / Academic and Cultural Project Operations

NAAI Core Management Team / International Project Lead; EAE Website Content Operations | Mar 2025 - Present

- Builds verification fields for NAAI and EAE member data, identifying gaps, conflicts and open questions across identity, institution, role, research area, representative work and public sources.
- Runs EAE Member, News and related website content through material organization, written-English review, title and source checks, and post-publication page review.
- Coordinates nomination, film and participant materials for Astria Awards and related programs, following critical gaps, director or jury communication, certificate wording and milestone records.
- Sets source priorities, no-guess boundaries, output formats and acceptance criteria for AI agents, reviews facts and public results, and captures reusable skills and checklists.

Shuotu Education Technology Group

Executive General Manager | 2023 - 2025

- Consolidated user, content, community and partner feedback, setting priorities, owners and action milestones.
- Turned missing materials and process blockers into trackable actions, coordinating information recovery and resolution.
- Reviewed outcomes and adjusted content, service and follow-up plans based on feedback.

Siyuan Hanke Culture Communication Co., Ltd.

Content Operations Lead / New Media Operations | Mar 2018 - Aug 2023

- Managed education content across topic selection, editing, publishing and ongoing maintenance.
- Adjusted topics, framing and publishing schedules based on feedback and content performance.
- Organized campaigns and promotional content, following publication, interaction and review to improve later execution.

Kuitun No.1 Middle School

Junior High School English Teacher | Sep 2016 - Feb 2018

- Structured concepts and classroom activities around learning goals and student readiness.
- Tracked progress and turned student and parent feedback into teaching adjustments and follow-up actions.

Selected Projects

Member Information Governance & Content Quality

Context: Materials may include missing fields, inconsistent titles, unclear public sources or page-level discrepancies.

Actions: Translates the operating need into verification fields and decision boundaries, uses AI for extraction, manually reviews identity, institution, professional background, public sources and page content, and turns issues into corrective actions.

Deliverables: Verification records, field standards and revision lists, member or news pages, and a publication review workflow.

AI Agent-enabled Operations Workflow

Context: Academic-organization operations span public sources, member data, news content, page status and multiple milestones.

Repeated tasks can drift when decision boundaries and acceptance criteria are unclear.

Actions: Structures work into research, field organization, content generation, page checks and public-result review; sets source priorities, output formats, no-guess boundaries and acceptance criteria for AI agents, then iterates the rules when results drift.

Deliverables: Structured verification records and revision lists, member and news content, source and page review results, and reusable skills, workflows and checklists.

Film Awards Materials & Milestone Coordination

Context: Awards programs connect nominations, film materials, director or jury communication, review milestones, certificates and documentation.

Actions: Organizes nomination and film materials, records missing or unverified items, follows communication, checks certificate wording and archives final materials.

Deliverables: Nomination and film materials, open-item records, communication follow-up, certificate text and archived records.

Skills

Requirements & Delivery	Requirement analysis, task decomposition, priorities, ownership boundaries, acceptance criteria and outcome review
AI Agent Coordination	Codex / ChatGPT collaboration, AI Agent Workflow, vibe coding and iterative correction
Information & Knowledge	Official-source research, multi-source verification, structured information, status tracking, content and knowledge operations
Operations & Standards	Project coordination, feedback loops, reusable skills, templates, trackers, workflows and checklists

Education

Yili Normal University | Undergraduate study in English Education | Sep 2012 - Jun 2016

Training in English language, pedagogy, curriculum design and teaching practice, with a foundation in education content and written English materials.
